

SITE TO STATUTE

Techno-Legal Dimensions of Construction Projects

ORGANISED BY

IN ASSOCIATION WITH

Date: 7 March 2026

Venue: Hall 3 - AMM Arunachalam Hall,
Ground Floor, ICSR Building, IIT Madras

ABOUT THE EVENT

Construction projects today - particularly **metro rail, infrastructure, highways, and urban development works** - face increasing exposure to:

- Contractual disputes
- Design - construction interface risks
- Delay and cost claims
- Documentation & compliance failures

Many of these issues originate **on site**, but surface later as **legal, contractual, and arbitral disputes**.

"**Site to Statute**" is a focused **industry-academia meet** designed to help contractors and consultants understand how **technical, commercial, and site decisions translate into legal and financial outcomes**.

WHY CLAFI & IIT MADRAS

CLAFI

Industry-Driven Practical Insight

CLAFI is a not-for-profit professional forum led by practitioners with **decades of experience** in:

- High Speed Rail, Metro & infrastructure projects
- EPC and turnkey contracts
- Contract administration & claims management
- Construction arbitration & dispute resolution

CLAFI's approach is **practical, experience-based, and contractor-centric** - focused on preventing disputes, not merely resolving them.

IIT Madras

Academic Excellence & Systems Thinking

IIT Madras brings:

- Academic rigour and analytical depth
- Engineering excellence and project systems thinking
- Credibility and neutrality essential for industry learning

Together, CLAFI and IIT Madras provide a **balanced platform combining site realities with structured learning**.

WHY THIS EVENT IS VALUABLE FOR METRO & INFRA CONTRACTORS

- Understand how site practices affect claims & disputes
- Reduce avoidable disputes and cost leakages
- Improve contract compliance without slowing execution
- Equip project managers with basic legal awareness
- Learn documentation practices that protect contractors

This is **not an academic seminar**; it is a **learning forum** tailored for engineers, planners, and commercial managers.

WHY SPONSOR THIS EVENT

Sponsoring Site to Statute allows your organisation to:

- ✔ Gain direct visibility among decision-makers from contracting and consulting firms
- ✔ Position your firm as professionally mature and dispute-aware
- ✔ Demonstrate commitment to best practices in contract and risk management
- ✔ Engage with academia, industry experts, and peers in a neutral learning environment
- ✔ Build brand credibility among engineers, lawyers, and project leaders
- ✔ This is particularly valuable for growing contractors & mid-sized infrastructure firms seeking professional differentiation.

SPONSORSHIP TIERS

Platinum Sponsor - ₹1,00,000

Key Benefits:

- "Platinum Sponsor" recognition in all event materials
- Logo on brochure, backdrop, and digital promotions
- Opportunity to address the audience (short opening remark)
- Complimentary delegate passes (premium allocation)
- Prominent brand visibility among all participants
- Direct interaction with speakers and panel members

Ideal for:

Metro contractors, EPC firms, claims consultants, and PMCs seeking high visibility and leadership positioning.

Gold Sponsor - ₹75,000

Key Benefits:

- "Gold Sponsor" recognition in event materials
- Logo on brochure and selected digital promotions
- Complimentary delegate passes
- Brand visibility during the event
- Networking access with participants and experts

Ideal for:

Infrastructure contractors, specialist subcontractors, consulting firms aiming for strong professional visibility.

Silver Sponsor - ₹40,000

Key Benefits:

- "Silver Sponsor" acknowledgement in the brochure
- Logo placement in sponsor panel
- Complimentary delegate pass(es)
- Association with CLAFI initiative

Ideal for:

Smaller and mid-sized contractors, boutique consultants, and emerging firms seeking credible association and learning exposure.

OUR SHARED VISION

CLAFI believes the construction industry benefits when:

- Engineers understand contracts, and
- Lawyers understand engineering realities

By sponsoring this event, organisations contribute to building a more contract-aware, dispute-resilient construction ecosystem, particularly relevant for India's expanding metro and infrastructure sector.
